

No one should stand between a woman and her doctor.

If your pharmacy doesn't quickly fill your birth control prescription, they're violating Governor Blagojevich's emergency rule. If a pharmacy refused to fill your prescription, please call the Department of Financial and Professional Regulation at 1-800-280-4149, because pharmacies don't have the right to stand between you and your doctor. If a pharmacy sells birth control, they have to fill your doctor's prescription. No delays. No hassles.

ROD R. BLAGOJEVICH
GOVERNOR, STATE OF ILLINOIS
